

<b>Name of Contract</b>	<b>Description</b>
Base Logistics Installation Movements at Joint Base Langley-Eustis	LOGISTICS 2020 provides efficient, responsive, and quality transportation services while complying with governing laws, directives, systems or programs, and regulations for cargo, passenger, personal property, and unit move functions assigned to the 733D Logistics Readiness Division (LRD) at Joint Base Langley-Eustis (JBLE), Virginia.
DLA/Navy Fleet and Industrial Supply Center Norfolk (FISCN) Logistics and Warehousing Support	LOGISTICS 2020 Inc., a subcontractor to CACI, provides various supply support functions to the Navy Fleet and Industrial Supply Center Norfolk (FISCN) Logistics and Warehousing Contract in Crane, Indiana. Our personnel provide Power Track, inventory processing, inventory management, and transportation management for the Navy.
Responsible Reset Task Force (R2TF) Analytical Support and Data Collection	LOGISTICS 2020 supports the Responsible Reset Task Force (R2TF) through the rapid return, repair, redistribution and/or disposal of Army equipment currently deployed in the South West Asia (SWA) theater. Utilizing designated DoD In-Transit Visibility (ITV) systems, we collect, integrate, and distribute transportation information for cargo moving from SWA to CONUS destinations. Additionally, our personnel help to maintain the velocity of the drawdown effort by providing analytical support, logistics data management, property accountability, and the ability to quickly identify and resolve retrograde issues.
DLOC Logistics Services	LOGISTICS 2020 has been providing the Defense Intelligence Agency (DIA) logistical support in the CENTCOM AOR since 2003. In 2011, LOGISTICS 2020 was awarded a contract to continue our logistics support for not only DIA, but other Intelligence Community (IC) agencies as well. We provide warehousing, supply, maintenance, facilities, billeting, planning, and transportation support in remote deployed locations such as Kandahar and Bagram, Afghanistan; Baghdad, Iraq; and Doha, Qatar. Our support also includes CONUS-based tasks such as Central Issue Facility (CIF) operations, logistics planning, and cargo and passenger transportation.
Deployed Logistical Support (DLS)	<p>LOGISTICS 2020 provides the National Geospatial-Intelligence Agency (NGA) and the Intelligence Community (IC) prompt and robust logistical support. Our personnel provide services in the following functional areas:</p> <ul style="list-style-type: none"> <li>• Planning and coordination for deployment logistical support</li> <li>• Transportation of personnel, equipment and supplies</li> <li>• Receipt, issue, storage and accountability of property and equipment</li> <li>• Sustainment of personnel, equipment and facilities</li> </ul>

Operational Support Services for Global Deployment Operations	LOGISTICS 2020 performs operational oversight support for global deployment operations, deployment force management, readiness and exercise management, administrative, and Automated Information Management (AIT). Our personnel provide deployment services to personnel in CONUS and OCONUS locations.
Base Logistics Supply and Services at Joint Base Langley-Eustis	LOGISTICS 2020 is a subcontractor to Logistics Management Resources (LMR) providing Supply Support Activity (SSA) operations, Central Receiving Point (CRP) support, and bulk fuel operations.
FBI Blanket Purchase Agreement	LOGISTICS 2020 provides shipping coordination, subject matter expertise, and packing/crating services for the FBI.
Intelligence Data Collector Support Services Contract	LOGISTICS 2020 provides support in the areas of foreign munitions and materiel data collection; munitions storage, maintenance, and transportation; and materiel accountability, warehousing, and classification.
